

Port of A Coruña: reorienting towards the blue economy

Port of A Coruña: reorienting towards the blue economy

- 1. Strategic lines**
- 2. SmartPort**
- 3. Agreement with the University of A Coruña**
- 4. Smart Port Blue Acceleration Network Consortium**

1. Strategic Plan

Four lines of our strategic plan were aimed at stimulating the blue economy in the port of A Coruña:

- Improve the efficiency of internal processes
- Advance in environmental integration
- Support the development of the economy and knowledge in the hinterland
- Support the fishing sector in its transition to self-management

2. SmartPort of A Coruña

Since 2015 and to improve the efficiency of port processes, the SmartPort project pursues its automation to streamline and increase efficiency in safety, sustainability, operations management and decision-making.

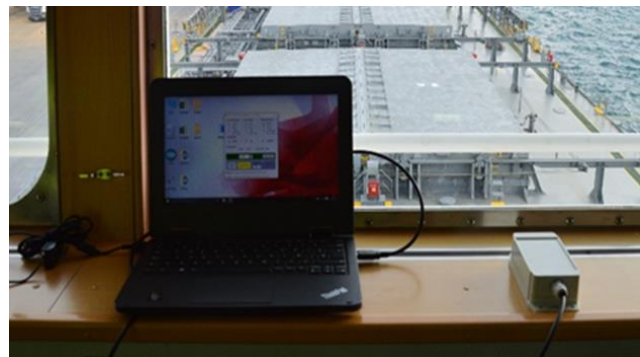

A digitized port stimulates innovative businesses in its hinterland.

3. Agreement with the University of A Coruña

It is working with the University to improve operational efficiency through tools based on artificial intelligence.

Its practical application will open new lines of business in the port's ecosystem.

3. Agreement with the University of A Coruña
